We have had a couple of reports from our children this week, explaining they have seen ads on their phones that are not appropriate – here is a helpful guide on how to monitor these.

Class Transitions

Transitions for the new academic year for some of our pupils are beginning next week into their new classes ready for September. Why do we do this now? The summer holidays poses a long break from school and returning into the unknown can be very anxiety provoking. Transitioning half a term earlier, means the transition back into school is often filled with excitement rather than uncertainty. When it is your child's turn to move (if they are) we will advise you and your child at the same time so you can support the conversations at home.
